

"Ionizing Radiation Protection" Training Notice

Subject: Please urge and supervise the teaching staff and research personnel and students in your department, who must receive radiation protection training, to register with Ms. Lin, the health physics department of the Nuclear Science and Technology Development Center, before October 16th. (Please be sure to register within the specified time. If it is overdue, it will not be accepted. For whom already registered and intended to make cancellation, please call before October 16th to avoid affecting other people's rights.) Contact telephone (on-campus extension): 35484. Attached is a blank registration form for participants, please fill out and fax (fax: 5722660) or e-mail to: khlin@mx.nthu.edu.tw.

Note! The training will be available once during your research or study period in National Tsing Hua University. If you have been trained once, don't repeat it.

Description:

1. According to Article 3 in the Act of "Administrative Regulations for Operators of Radioactive Material or Equipment Capable of Producing Ionizing Radiation" published by the Atomic Energy Council, the teaching staff and students of the University must receive at least three hours' radiation protection training, before operating radioactive materials or devices capable of producing ionizing radiation in the University.
2. The radiation protection training held this semester has been scheduled to be held from 1 pm to 5 pm on October 23rd (Friday), 2020 The training will be held at the Department of Biomedical Engineering and Environmental Sciences (Lecture room: BMES120).
3. If you are required to apply for a personal dose badge, please contact Ms. ko, the health physics department of the Nuclear Science and Technology Development Center, contact telephone (on-campus extension): 35781 or 42885.
